VOLUNTEER WORK

GROUP MANAGER, STUDENTS-TO-STUDENTS, LOS GATOS, CA – MARCH 2010 - JUNE 2013

Managed a high school peer group to teach other students about proper ethical and moral standards. Taught social awareness and self actualization. Performed in "The Sophomore Assembly" on stage, to create a cultural shift of individual responsibility and intelligent decisions during their teen experience.

REALITY CHECK, LOS GATOS, CA – MAY 2010 - JUNE 2013

Member of a publication that dealt with the serious issues of High school realities such as suicide, drugs, drinking and rape. We chose certain topics each month for students from LGHS to write their thoughts anonymously. Our monthly publication presented the shocking realities and real life stories for distribution to parents and students to stimulate open discussions for family support. Organized meeting dates, filed papers, formatted publications, and proofread stories. Finally, we contacted professional writers and team psychologists to research, formulate and collaborate for each month's publication.
